

K091R65

Electronic bottle scales (Standard)

Digital display with battery compartment (IP54)

For determination of the fill quantity of gas bottles

The electronic bottle scales allow quick and easy determination of the filling capacity of a gas bottle. The large weighing platform and the supporting chain provide additional stability of the gas bottle. The weight is indicated on the illuminated display which switches off automatically if the scales are not used for a certain time. Thanks to the tare function high precision quantification of gas inputs and outputs is possible. The bottle scales can be folded easily and compactly in one step after use.

Standard version

- Surface: electrogalvanizing
- Operating manual
- Plug 100 - 240 V / 50 - 60 Hz with 2 meter long cable (only K091R65)

Advantages & functions

- Weighing range: up to 120 kg with tare function
- Digit increment: 10 g
- Accuracy: ± 20 g
- Weight indication reversible from kg to lbs

Technical data

Dimensions (W x H x D)	450 x 790 x 390 mm during operation
Dimensions (W x H x D)	310 x 300 mm Weighing platform
Dimensions (W x H x D)	450 x 85 x 790 mm folded
Weight	15.8 kg approx.
Power supply	4 x 1.5 V AA batteries / not included in the delivery
Protection class	IP54
Operating temperature	-10 to +45 °C

Packaging

3-775-R033-C	Packing for K091R65 / K091R67
