

3-558-R010/A

Digital precision gauge with 5 point certificate

Indication range -1 to 10 bar / 0 - 10 bar / 0 - 1000 kPa / 0 - 145 psi

Indication in bar, kPa, psi (reversible) / class 0.1

For pressure control in gas compartments

This is a useful temperature compensated measuring device when precise pressure indication is required.

The connecting hose for measuring devices is equipped with a self-closing coupling to avoid SF₆ to escape into the atmosphere during the testing process. The device can be transported comfortably and safely in the handy transport case.

**Standard version**

- DN8 coupling tongue part
- DN20 coupling tongue part
- temperature compensated digital precision gauge -1 to 10 bar /class 0.1
- 1 m long Teflon hose with connecting coupling for measuring devices
- handy transport case
- operating manual

Technical data

Dimensions (W x H x D)	310 x 150 x 390 mm with transport case
Weight	3.5 kg

Note

Other transition pieces available on request.
